

*Dear customers;*

*Due to the current situation related to the spread of the COVID-19 virus, from Depurfiltech we want to express our support to all those affected in their speedy recovery, as well as to highlight our sincere gratefulness to everyone engaged with their effort and commendable work, they are carrying out for the benefit of all, such as;*

*Doctors, health workers, pharmacists, supermarket staff, transporters, armed forces and state security forces, cleaning staff, consultants, etc, etc.*

*At this time, we empathise with the entire population and the citizens whose routines and lifestyles are being affected by the current containment measures, hoping that these will help to mitigate the impact of this disease and the volume of cases.*

*At Depurfiltech we are following all the hygienic-sanitary recommendations that the institutions are transmitting to us. Our aim is to continue our activity and our way of working as normally as possible, always with a commitment to social responsibility. To this end, we have organised ourselves internally by means of teleworking, and at the same time organising manufacturing groups by shifts, in order to continue with the delivery of orders as far as possible.*

*So, we remain accessible via mobile phone, email, etc.*

*From Depurfiltech we will adapt to events as they develop, although we will try to comply with our service policy to the best of our ability.*

*We are at your disposal and thank you for relying on us.*

*Jose Manuel Saiz*

*General Manager*
