

As a Depurfiltech customer, I would like to express the wish of the whole team that makes up the company that your family, friends and yourself are feeling well. These are difficult times, never experienced before, days go by and we feel more and more worried, anxious and desperate, so we can only remain calm, be patient and try to be very close to our loved ones, so that as soon as we are able to go back to our daily lives, we will be ready for a new world, a new situation and a new reality. At this moment, all we have left is Faith, Hope and Trust, first to come out unscathed, then to defeat the pandemic together and thirdly, to save what we can of our battered economy and fight to relaunch it as the basis of our future life. We owe it to our elders who fought and did so much to leave us a better world, and we owe it to our children to reciprocate.

We sympathise with all the deceased and their families for not being able to say goodbye to them as they would have liked and as they would have deserved. We sympathise with all the sick who are suffering from this cruel pandemic and pray daily for their speedy recovery.

And we thank, support and show our solidarity with all the people who are looking after all of us and take care of us; doctors, health workers, scientists, orderlies, cleaning staff, supermarkets, transporters, livestock farmers, farmers, fishermen, state security forces and bodies, airline pilots, pharmacists, NGOs and establishments that collaborate with food for the health workers, etc, to all of you, thank you very much, we will never forget you!

Our team is at your disposal to answer any questions you may have and we will support you in the most efficient way possible in these circumstances.
Best regards,

Jose Manuel Saiz (general manager)
